

42ND ANNUAL CONFERENCE

# PROCEEDINGS

American Association of Bovine Practitioners

Omaha, Nebraska  
September 10-12, 2009

**1 SHOT AT DRY-OFF CAN SAVE YOU MONEY**  
**1 SHOT AT DRY-OFF CAN SAVE YOU TIME**  
**1 SHOT AT DRY-OFF CAN SAVE YOU HASSLE**

▶ **1 SHOT AT DRY-OFF CAN SAVE YOUR CALVES**

Guardian® vaccine provides broad-spectrum scours protection in a single shot at dry-off (5-7 weeks pre-calving), after the initial two-dose heifer regimen. That means lower overall costs and fewer shots to schedule. Plus, our sub-unit technology means fewer adverse reactions. Ask your animal health supplier about a complete scours management program using Guardian vaccine today.

▶ **The Most Complete Scours Protection** ▶

35500 West 91st Street, De Soto, KS 66018 • O&B 6/09 35761

# AABP OFFICERS

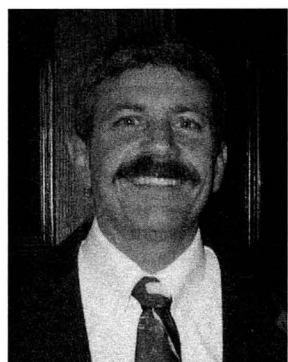

President-Elect  
**ROGER SALTMAN**  
DVM  
Cazenovia, New York

President  
**RICHARD WALLACE**  
DVM  
Champaign, Illinois

Vice-President  
**CHRISTINE NAVARRE**  
DVM  
Baton Rouge, Louisiana

Past-President  
**MIKE BOLTON**  
DVM  
Greenville, Michigan

Exec. Vice-President  
**M. GATZ RIDDELL, JR**  
DVM  
Auburn, Alabama

---

## Directors

District 1  
**MARK J. THOMAS**  
DVM  
Carthage, New York

District 2  
**BOB CLONINGER**  
DVM  
Centre Hall, Pennsylvania

District 3  
**ART DONOVAN**  
DVM  
Gainesville, Florida

District 4  
**RICHARD WILEY**  
DVM  
Wooster, Ohio

District 5  
**GLEN JOHNSON**  
DVM  
Reedsburg, Wisconsin

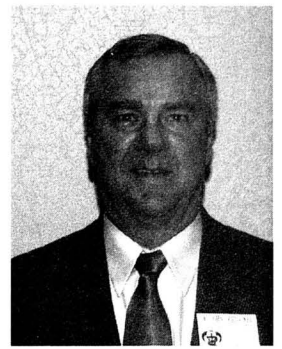

District 6  
BILL SEGLAR  
DVM  
Johnston, Iowa

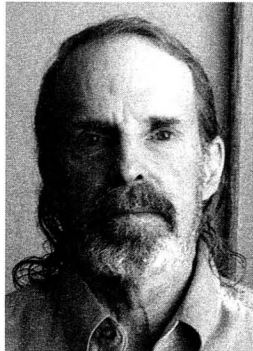

District 7  
SHAWN BLOOD  
DVM  
Guymon, Oklahoma

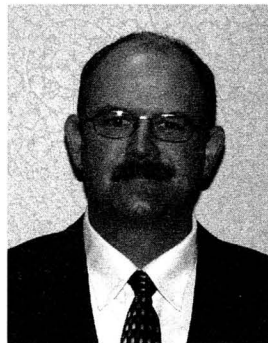

District 8  
GLENN ROGERS  
DVM  
Aledo, Texas

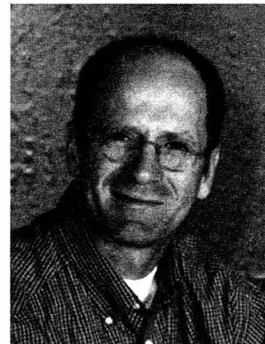

District 9  
JOHN SCHNACKEL  
DVM  
Fort Collins, Colorado

District 10  
STEPHEN SMALLEY  
DVM  
Chandler, Arizona

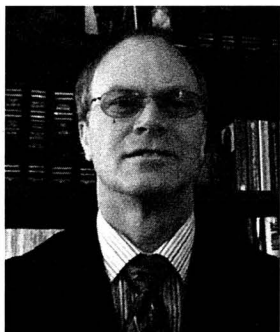

District 11  
SCOTT WALTNER  
DVM  
Mount Vernon, Washington

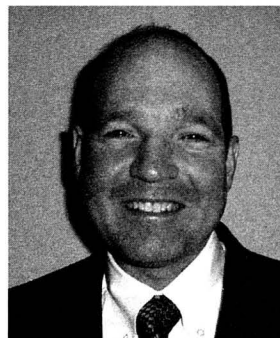

District 12  
GUY R. BOISCLAIR  
DVM  
Victoriaville, Quebec, Canada

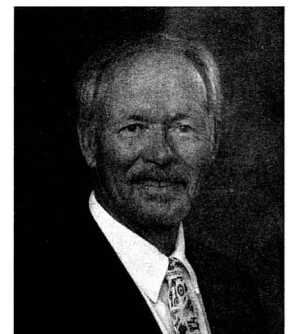

District 13  
J. EGAN BROCKHOFF  
DVM  
Olds, Alberta, Canada

Treasurer  
BRIAN REED  
DVM  
Manheim, Pennsylvania

Exhibits Manager  
CHARLIE HATCHER  
DVM  
College Grove, Tennessee

Editor  
ROBERT A. SMITH  
DVM  
Stillwater, Oklahoma

Parliamentarian..... Rich Meiring, DVM, Marysville, Ohio  
AVMA Delegate ..... Mark Spire, DVM, Manhattan, Kansas

# Table of Contents

## GENERAL SESSIONS

- Livestock Disease Surveillance: Meeting Future Needs  
David C. Van Metre, M. D. Salman ..... 1
- Training Bovine Health Professionals for the Future  
Franklyn Garry ..... 6
- Prescriptions and Drug Distribution: Pharmacy and State Regulations  
Shirley Arck ..... 9
- Veterinary Prescriptions and Drug Distribution: Who's in Charge?  
Elaine Lust ..... 11
- Health Risks to Veterinarians and Associated Personnel: Handling Pharmaceuticals and Biologicals  
Kelley J. Donham, David Rendell ..... 14
- Your Livelihood: Your Neck, Shoulder, and Arm  
Ronald Ailsby ..... 18

## FEEDLOT SESSION

- Abrupt Weaning Significantly Increases Mortality Following a Secondary Bacterial Respiratory Infection  
Philip J. Griebel, Paul D. Hodgson ..... 23

## DAIRY SESSIONS

- BioPRYN®, a Measure of Pregnancy-specific Protein B for Detection of Pregnancy in Ruminant Animals  
RG Sasser, J Branen, J Howard, C Passavant, D Pals ..... 38
- Economic Concepts Regarding Early Pregnancy Testing  
David Galligan, James Ferguson, Robert Munson, Darren Remsburg, Andy Skidmore ..... 48
- Application of "Pregnancy Specific Protein B" Testing Technology in a Commercial Dairy  
Richard C. Prather ..... 54
- A Less-palpation Dairy Practice? Rediscovering Theriogenology  
Robert J. Vlietstra ..... 57
- A Practitioner Approach to Consulting and Monitoring a Dairy Heifer Replacement Operation  
Gregory M. Goodell ..... 62
- Pre-harvest Feeding, Feeding Duration, and Inclusion of a  $\beta$ -agonist on Market Dairy Cow Feedlot Performance and Carcass Characteristics  
A.E. Ewing, J.K. Ahola, M.E. Doumit, C.W. Hunt ..... 66
- Mycoplasmas and the Dairy Industry  
Ricardo F. Rosenbusch ..... 73
- Mycoplasma as an Environmental Isolate on Dairy Farms  
David J. Wilson, Anne Justice-Allen, Greg Goodell ..... 77
- Effects of Temperature and Humidity on the Survival of Mycoplasma Organisms in Recycled Bedding Sand  
Anne Justice-Allen, Jessie Trujillo, Robert Corbett, Robert Harding, Greg Goodell, David Wilson ..... 81
- Management Approaches to Reducing or Eliminating Mycoplasma Mastitis in a Dairy Herd—What Has Been Working and Not Working  
David J. Wilson, Anne Justice-Allen, Jennifer Maddox ..... 86
- Perspective on Planned BVD Control Strategy  
Dale M. Grotelueschen ..... 93
- BVD Control for the Dairy Practitioner: Strategies and Implementation  
Scott T Smith ..... 98

## AABP & AASRP JOINT SESSIONS

- Field Anesthetic Techniques for Camelids  
David E. Anderson ..... 103
- Angular Limb Deformity in Llamas and Alpacas  
David E. Anderson ..... 105
- Fracture of the Long Bones  
Kenneth D. Newman, David E Anderson ..... 108
- Tips and Tricks for Common Medical and Surgical Procedures in Small Ruminants  
David C. Van Metre ..... 116
- Surgery of the Gastrointestinal Tract in Camelids—Part 1 & 2  
Kenneth D. Newman, David E. Anderson ..... 120
- Laparoscopy in Llamas and Alpacas  
David E. Anderson ..... 130
- Periapical Tooth Root Infections in Llamas and Alpacas  
David E. Anderson ..... 132
- Surgical Management of Reproductive Emergencies  
David E. Anderson ..... 136
- Enterotoxemia of Small Ruminants  
David C. Van Metre ..... 143

## VET TECH

- Assisting with Calvings: the Role of the Veterinary Technician  
David R. Smith, Douglas Hostetler, Sherry Westphal ..... 148
- A New Health Care Delivery System and the Economics of Utilizing Veterinary Technicians  
DT Galligan, JD Ferguson, R Munson, D Remsburg, A Kelly ..... 156
- Critical Calf Care  
Sheila M. McGuirk, Rachel Kipp ..... 163

## SESSIONS FOR STUDENTS

- Client Perception = Your Reality  
Communication and Professionalism  
Kathleen A Bonvicini ..... 168

## RESEARCH SUMMARIES 1

- A Comparison of Feeding an Oral Electrolyte in the Milk to an Oral Electrolyte Fed Separately in Water to Calves with Diarrhea  
G.M. Goodell, J. Campbell, L. Carstensen ..... 170
- Effect of Oral Flunixin Meglumine on Heart Rate, Physical Activity, and Salivary Cortisol Concentration following Cautery Disbudding of Dairy Calves  
D. Morin, L. Brown, R. Wallace, V. Jarrell, P. Constable ..... 171
- Effect of Nutritional Plane on Health and Performance in Dairy Calves after Experimental Infection with *Cryptosporidium parvum*  
T.L. Ollivett, D.V. Nydam, T.C. Linden, D.D. Bowman, M. Van Amburgh ..... 172
- Lameness in Dairy Cattle: A Debilitating Disease or a Disease of Debilitated Cattle? A Cross-sectional Study of Lameness Prevalence and Thickness of the Digital Cushion  
R.C. Bicalho, L.S. Caixeta, V.S. Machado ..... 173
- A Randomized and Blinded Field Trial to Assess the Efficacy of an Autogenous Vaccine to Prevent Naturally Occurring Infectious Bovine Keratoconjunctivitis (IBK) in Beef Calves  
L. Funk, M. Maroney, T. Engelken, V.L. Cooper, J. Kinyon, P. Plummer, A.M. O'Connor ..... 174

- Evaluation of Retreatment and Case Fatality Rates for Calves Treated with Antimicrobials and Ancillary Flunixin Meglumine for BRD Complex  
E.D. Linsenmeyer, D.U. Thomson, J.T. Fox, N.N. Lindberg..... 175
- Comparison of Three Tetracycline Antibiotic Treatment Regimens for Carrier Clearance of Persistent *Anaplasma marginale* Infection Derived under Field Conditions  
J.B. Reinbold, J.F. Coetzee, R.R. Ganta..... 176
- Comparison of the Timing of the Second Dose of Prostaglandin F2 Alpha in a Five-Day Progesterone-based Timed AI Synchronization Protocol in Angus Cross Beef Cows  
W.D. Whittier, R. Kasimanickam, J. Currin, H. Schramm, M. Vlcek ..... 177
- Weight Gain in the First 28 Days after Weaning on Five Commercial Cow-Calf Farms  
J.F. Currin ..... 178
- Evaluating Health, Performance and Behavior in Beef Stocker Calves Administered Two Preventive Health Protocols  
G.A. Hanzlicek, B.J. White, D.G. Renter, D. Blasi..... 179
- Bilingual, Digital, Audio-visual Training Modules Improve Technical Knowledge of Feedlot Workers  
C.D. Reinhardt, D.U. Thomson, D.D. Retzlaff, J.A. Valles .. 180
- Preliminary Investigation of the Association between Feeding Starch-based Ethanol Co-Products and *Salmonella* Species Shedding in Commercial Feedlots  
J.B. Osterstock, J.E. Kahl, S.D. Lawhon..... 181

**RESEARCH SUMMARIES 2**

- Determining the Prevalence of Bovine Viral Diarrhea Virus Persistently Infected Calves Originating from a Number of Modern Western Well-vaccinated Dairy Herds  
T. Shelton, B. Hoffman..... 182
- The Association of Level of Milk Production with Reproductive Performance in Dairy Cattle  
M.S. Campbell, K. Hand, D.F. Kelton, F. Miglior, S.J. LeBlanc..... 183
- Evaluation of 14 Western Dairy Herds Using FirstStep™: A Novel Tool to Troubleshoot and Prevent Lameness in Dairy Herds  
J.M. DeFrain, M.T. Socha, D.J. Tomlinson, N.B. Cook..... 184
- Dairy Beef Quality Assurance: Do Reproductive Hormone Injections in Dairy Cows Cause Significant Edible Tissue Damage?  
S. Wagner, V. Fajt, L. Pedersen..... 185
- Johne’s Disease Control in Ontario and Western Canada  
U. Sorge, D. Kelton, K. Lissemore, A. Godkin, S. Hendrick, S. Wells ..... 186
- Preliminary Results on the Effect of Feeding Heat-treated Colostrum on Health and Growth in Pre-weaned Dairy Calves  
M. Donahue, S. Godden, R. Bey, S. Wells, J. Fetrow, J. Stabel..... 187
- Effect of Flunixin Meglumine Treatment Following Parturition on Cow Health and Milk Production  
T. Duffield, H. P. Dingwell, A. Skidmore, D. Weary, L. Neuder, W. Rapheal, S. Millman, N. Newby, K. Leslie .... 188
- Herd Alarm Levels for Health, Reproductive, and Production Effects Based on Non-esterified Fatty Acid and Beta-Hydroxybutyrate Concentrations in Dairy Herds  
P.A. Ospina, D.V. Nydam, T.S. Stokol, T.R. Overton..... 189
- Validation of a Rapid Cow-side Test for the Measurement of Blood Beta-Hydroxybutyrate in Fresh Cows  
K. Konkol, S. Godden, P. Rapnicki, M. Overton, E. Rollin .. 190

- Periparturient Effects of Feeding a Low Dietary Cation-Anion Difference Diet on the Metabolism of High-Producing Dairy Cows  
W. Grunberg, P.D. Constable..... 191
- Serum Amyloid-A and Haptoglobin Concentrations and Liver Fat Percentage in Lactating Dairy Cows with Abomasal Displacement  
H. Guzelbektes, I. Sen, M. Ok, P.D. Constable, A. Coskun .... 192
- Preliminary Validation of a ‘Calf-Side’ Test for Measurement of Serum IgG in Dairy Calves  
S. Stewart, S. Godden, M. Schrupp ..... 193

**RESEARCH SUMMARIES 3**

- Rumenotomy and Rumenostomy in Cattle: A Retrospective Study of Twenty-five Cases (1999-2005)  
A. Niehaus, D.E. Anderson..... 194
- Association between Serum Total Protein and Immunoglobulin G Measures in Calves Fed a Whole Colostrum Derived Colostrum Replacer  
J. Belz, S. Godden, D.M. Haines, K. Leslie, B. Nelson ..... 195
- Use of Three-Dimensional Accelerometry for Non-Contact, Continuous Characterization of Behavior Using an Induced Arthritis Model in Calves  
B. Robert, B. White, D.E. Anderson, K. Schulz..... 196
- Quantitative Electroencephalographic Findings Associated with Nociception Following Surgical Castration in Conscious Calves  
L. Bergamasco, J.F. Coetzee, R.M. Mosher, J.L. Kotschwar ..... 197
- Apparent Differences in Xylazine, Ketamine, and Butorphanol Pharmacokinetics Linked with Pain Associated with Dehorning and Castration  
J.F. Coetzee, R. Gehring, S. Barron, D.E. Anderson, J. Havel ..... 198
- Veterinary Opinion and Evidence-Based Medicine Regarding the Best Management Practice for a Bovine Uterine Prolapse  
W. Wapenaar, H. Griffiths, M. Green, J. Huxley ..... 199
- Analgesic Efficacy of Sodium Salicylate in an Amphotericin B Induced Bovine Synovitis-Arthritis Model  
J.L. Kotschwar, J.F. Coetzee, D.E. Anderson, R. Gehring, B. KuKanich, M.D. Apley ..... 200
- Evaluation of the Conference Proceedings and Peer-reviewed Publications for Vaccine-related Studies Presented at the Annual Meeting of the American Association of Bovine Practitioners from 1988 to 2003  
S.J. Brace, D.D. Taylor, A.M. O’Connor..... 201
- Variation in Viremic Concentration among Cattle Persistently Infected with Bovine Viral Diarrhea Virus  
J.S. Nickell, B.J. White, R.L. Larson, D.R. Renter ..... 202
- Incidence of Herds Infected with Bovine Viral Diarrhea Virus in Four Western Counties Enrolled in the Michigan Upper Peninsula BVDV Eradication Program  
E.M. Corbett, D.L. Grooms, S.R. Bolin, B. Bartlett..... 203
- Transmission of Bovine Viral Diarrhea Virus from Acutely Infected White-tailed Deer to Cattle via Indirect Contact  
J.F. Ridpath, J.D. Neill, C.C.L. Chase ..... 204
- Establishing Guidelines for Reporting Clinical Trials: An Extension of the CONSORT Statement for Trials Involving Livestock with Production, Health, and Food Safety Outcomes  
A.M. O’Connor, J.M. Sargeant, I. Gardner, J. Dickson, M. Torrence..... 205

**RESEARCH SUMMARIES 4**

- Single-drug and Multi-drug Resistance Exhibited by Gram-positive Mastitis Pathogens  
M.D. Apparao, P. L. Ruegg, A. Lago, S. Godden, R. Bey, K.E. Leslie ..... 208
- Impact of a Coagulase-negative Staphylococci or *Staphylococcus aureus* Intramammary Infection during the First Month of Lactation on Somatic Cell Count, Milk Yield, and Culling in Primiparous Cows  
M.È. Paradis, É. Bouchard, D. Scholl, F. Miglior, J.P. Roy ... 209
- Impact of Intramammary Infection of *Serratia* Species on Milk Production, Somatic Cell Count, and Survival in Dairy Cattle  
M.G. Chuff, R.N. Zadoks, F.L. Welcome, C.G. Santisteban, M.J. Zurakowski, Y.H. Schukken ..... 210
- Risk of New Intramammary Infections during the Dry Period in Holstein Dairy Cattle Enrolled in the CBMRN National Cohort of Dairy Farms  
C.D. Calloway, I.R. Dohoo, G.P. Keefe..... 211
- Effect of the Treatment of Clinical Mastitis Based on On-farm Culture on Secondary Therapy, Days to Clinical Cure, Days out of Tank, Mastitis Recurrence, Somatic Cell Count, Milk Yield, and Culling  
A. Lago, S. Godden, R. Bey, P. Ruegg, K. Leslie..... 212
- An Investigation into the Coliform Growth of Digested Manure Solids on a Large Commercial Michigan Dairy  
J.S.P. Tulloch, N.J. O’Boyle, P.M. Sears ..... 213
- Efficacy of Two Fresh Cow Subclinical Mastitis Treatment Programs on Antibiotic Use, Days out of Tank, Bacteriological Cure, Clinical Mastitis, Somatic Cell Count, Milk Yield, Reproduction, and Culling  
A. Lago, S. Godden, R. Bey, P. Ruegg, K. Leslie..... 214
- Ovsynch versus Ultrasynch: A Clinical Trial of Breeding Efficiency Utilizing Corpus Luteum Function  
J.A.A. McArt, L. Caixeta, V. Machado, C.L. Guard, R.C. Bicalho ..... 215
- Milk Production and Reproductive Performance in Postpartum Dairy Cows Diagnosed and Treated for Metritis Using a Health Monitoring Program  
M. B. Rabaglino, J. E. Santos, C. Fuentes, C. A. Risco ..... 216
- Evaluation of Techniques for Diagnosis of Endometritis in Dairy Cows  
J. Dubuc, T.F. Duffield, K.E. Leslie, J.S. Walton, S.J. LeBlanc..... 217
- Effect of High Somatic Cell Counts on Reproductive Performance of Chilean Dairy Cattle  
P. J. Pinedo, P. Melendez, J. A. Villagomez-Cortes, C. Risco ..... 218

**POSTERS**

- Beet Pulp -- A Solution to Reduce Fat Cows’ Body Condition Scores (BCS)  
E. Mahjoubi, H. Amanlou, D. Zahmatkesh, M. Ghelich khan, M.H. Yazdi, G. R. Noori ..... 219

- Effect of Energy and Protein Density in the Diet and Milking Frequency on Milk Production in Early Lactation Dairy Cows  
N. Aghaziarati, H. Amanlou, D. Zahmatkesh, E. Zahmatkesh ..... 220
- Effects of Feeding Xylose-treated Soybean Meal and Parity on Performance of Dairy Cows in Early Lactation  
M.J. Moghadam, H. Amanlou, F. Fard, A.R. Noushari, M.H. Yazdi ..... 221
- Automated Detection of Lameness in Dairy Cows Using Measurements of Weight Distribution  
N. Chapinal, S.A. Wagner, J. Rushen, A.M. de Passillé ..... 222
- Passive Immunity to a Commercial *E. coli*-SRP® Vaccine in Beef Cattle Colostrum from Cows Grazing Native Range  
B.W. Wileman, D.U. Thomson, K.C. Olson, L.A. Pacheco ... 223
- Assessing and Predicting Feedlot Mortality and Culling Using Standard Feedlot Arrival Data  
A.H. Babcock, D.G. Renter, B.J. White, H.M. Scott..... 224
- Fatty Acid Profiles and Eicosanoid Biosynthesis in Transition Dairy Cows  
G.A. Contreras, N.J. O’Boyle, J.C. Gandy, L.M. Sordillo .... 225
- Evaluation of Thoracic Ultrasonography as a Diagnostic and Prognostic Tool for Early Bovine Respiratory Disease of Feedlot Calves in Western Canada  
C.W. Booker, C. Pollock, S.M. Abutarbush, A. Vogstad, G.K. Jim, S.J. Hannon ..... 226
- Effects of Feeding OmniGen-AF® on Phagocytic Ability of Neutrophils Isolated from Dairy Cattle, Rats and Mice  
A.D. Rowson, Y. Wang, N.E. Forsberg, S.B. Puntenney ..... 227
- Examination of the Use of Intrauterine or Systemic Antimicrobial Therapy to Prevent Puerperal Metritis in Dairy Cows with Dystocia  
J.M. Pinos-Rodriguez, N.J. O’Boyle, P.M. Sears ..... 228
- Beyond Perception: Assessing Reproductive Modules within a Continuing Education Program for Dairy Veterinarians  
G.M. Schuenemann, S. Bas, J.D. Workman, P. Rajala-Schultz ..... 229
- Flunixin Meglumine Residues and Injection Site Damage ... a Serious Problem That Needs Our Profession’s Attention  
D.D. Griffin..... 230

**Advertisers' Index**

Articles published in the Proceedings of the American Association of Bovine Practitioners are not peer-reviewed or refereed. All statements, opinions and conclusions contained in articles in the Proceedings are those of the author(s), and are not necessarily those of the American Association of Bovine Practitioners (AABP) unless specifically approved by the AABP Board of Directors.

# If your interest is **FOOD ANIMAL MEDICINE AND SURGERY**, then we have your treatment!

Head for WVC to build the skills that build success.

## Take a look at our offerings

CE on the cutting edge ...

64 food animal hours, AAVSB RACE approved

Value that's unbeatable ...

affordable fees plus advance registration discount

Enjoyable location with nonstop amenities ...

free comedy, concert, shuttles, receptions,  
and the playfulness of Las Vegas

Expansive exhibit hall ...

hundreds of exhibitors with great information  
and deals

## Then add our special focus on food animal medicine and surgery

Expert-led lectures:

Acupuncture  
Animal welfare  
Fracture management  
Gastrointestinal disease  
Johne's disease  
Immunization  
Infectious disease

Mastitis management  
Nutrition  
Pain management  
Reproductive efficiency  
*And other areas of specific  
interest to food animal  
veterinarians and  
technicians.*

## American Association of Bovine Practitioners

### Prudent Drug Usage Guidelines

The production of safe and wholesome animal products for human consumption is a primary goal of members of the AABP. In reaching that goal, the AABP is committed to the practice of preventive immune system management through the use of vaccines, parasiticides, stress reduction and proper nutritional management. The AABP recognizes that proper and timely management practices can reduce the incidence of disease and therefore reduce the need for antimicrobials; however, antimicrobials remain a necessary tool to manage infectious disease in beef and dairy herds. In order to reduce animal pain and suffering, to protect the economic livelihood of beef and dairy producers, to ensure the continued production of foods of animal origin, and to minimize the shedding of zoonotic bacteria into the environment and potentially the food chain, prudent use of antimicrobials is encouraged. Following are general guidelines for the prudent therapeutic use of antimicrobials in beef and dairy cattle.

1. The veterinarian's primary responsibility to the client is to help design management, immunization, housing and nutritional programs that will reduce the incidence of disease and the need for antimicrobials.
2. Antimicrobials should be used only within the confines of a valid veterinarian-client-patient relationship; this includes both dispensing and issuance of prescriptions.
3. Veterinarians should properly select and use antimicrobial drugs.
  - a. Veterinarians should participate in continuing education programs that include therapeutics and emerging and/or development of antimicrobial resistance.
  - b. The veterinarian should have strong clinical evidence of the identity of the pathogen causing the disease, based upon clinical signs, history, necropsy examination, laboratory data and past experience.
  - c. The antimicrobial selected should be appropriate for the target organism and should be administered at a dosage and route that are likely to achieve effective levels in the target organ.
  - d. Product choices and regimens should be based on available laboratory and package insert information, additional data in the literature, and consideration of the pharmacokinetics and pharmacodynamics of the drug.
  - e. Antimicrobials should be used with specific clinical outcome(s) in mind, such as fever reduction, return of mastitic milk to normal, or to reduce shedding, contagion and recurrence of disease.
  - f. Periodically monitor herd pathogen susceptibility and therapeutic response, especially for routine therapy such as dry cow intramammary antibiotics, to detect changes in microbial susceptibility and to evaluate antimicrobial selections.
  - g. **Use products that have the narrowest spectrum of activity and known efficacy *in vivo* against the pathogen causing the disease problem.**
  - h. Antimicrobials should be used at a dosage appropriate for the condition treated for as short a period of time as reasonable, i.e., therapy should be discontinued when it is apparent that the immune system can manage the disease, reduce pathogen shedding and minimize recurrence of clinical disease or development of the carrier state.
  - i. Antimicrobials of lesser importance in human medicine should be used in preference to newer generation drugs that may be in the same class as drugs currently used in humans if this can be achieved while protecting the health and safety of the animals.
  - j. Antimicrobials labeled for use for treating the condition diagnosed should be used whenever possible. The label, dose, route, frequency and duration should be followed whenever possible.
  - k. Antimicrobials should be used extra-label only within the provisions contained within AMDUCA regulations.
  - l. Compounding of antimicrobial formulations should be avoided.
  - m. When appropriate, local therapy is preferred over systemic therapy.
  - n. Treatment of chronic cases or those with a poor chance of recovery should be avoided. Chronic cases should be removed or isolated from the remainder of the herd.
  - o. Combination antimicrobial therapy should be discouraged unless there is information to show an increase in efficacy or suppression of resistance development for the target organism.
  - p. Prophylactic or metaphylactic use of antimicrobials should be based on a group, source or production unit evaluation rather than being utilized as standard practice.
  - q. Drug integrity should be protected through proper handling, storage and observation of the expiration date.
4. Veterinarians should endeavor to ensure proper on-farm drug use.
  - a. Prescription or dispensed drug quantities should be appropriate to the production-unit size and expected need so that stockpiling of antimicrobials on the farm is avoided.
  - b. The veterinarian should train farm personnel who use antimicrobials on indications, dosages, withdrawal times, route of administration, injection site precautions, storage, handling, record keeping and accurate diagnosis of common diseases. The veterinarian should ensure that labels are accurate to instruct farm personnel on the correct use of antimicrobials.
  - c. Veterinarians are encouraged to provide written guidelines to clients whenever possible to describe conditions and instructions for antimicrobial use on the farm or unit.
