Panel Discussion

Question: What about the reduction in the cell counts in cows over seven years of age?

Answer: Dr. Eberhart: There are very few cows in that group and the ones that make it that far are very resistant cows and they are there because of their resistance they have had very little mastitis.

THE SPACE AGE

EJACULATOR

A NEW CONCEPT IN CONVENIENCE

- Portable — weighs only 5 lbs.
- No power cords — self contained rechargeable (nicad) battery (over 100 collections per charge) will also operate off truck battery.

A NEW STANDARD OF PERFORMANCE

- Effective — reduced motor reaction
- Efficient — highest percent collections

Thousands sold over the past 15 years.

Ejaculator (with built-in rechargeable battery)	\$520.00
Complete set (includes ejaculator, standard probe, collector, case & cords)	\$699.00
Standard probe — \$90.00 3-electrode probe — \$140.00	
Available through your veterinary distributors.	

NO RISK PURCHASE!

May be returned, if unsatisfactory, for full refund.
Compare before you buy. Call us (collect) to arrange,
or for additional information.

Guaranteed for 2 years
(Free parts and labor)
