

Book News**Veterinary Pharmacology and Therapeutics**

Eighth Edition

Edited by H. Richard Adams

PUBLICATION DATE: February 2001

FOR IMMEDIATE RELEASE

Veterinary Pharmacology and Therapeutics explains the latest drugs, chemicals, and agents used in veterinary medicine and related fields. From the first edition authored nearly 50 years ago and through the eighth edition, this text continues to be a comprehensive resource for veterinary professionals and students seeking the basic and applied principles of veterinary pharmacology and therapeutics.

With a large portion of new or revised material, *Veterinary Pharmacology and Therapeutics* is a premier source of instructional material. Each of the book's contributors is a recognized and well-published expert in his or her aspect of this complex and ever-changing field. *Veterinary Pharmacology and Therapeutics* continues to stay up to date with the latest discoveries, trends, and veterinary standards.

ABOUT THE EDITOR: H. Richard Adams, Ph.D., is dean, College of Veterinary Medicine, Texas A&M University, College Station.

1220 pp., 7 x 10, illus., hardcover, ISBN 0-8138-1743-9, \$149.95. Price subject to change without notice. Sixty-day examination copies available to U.S. instructors. Complimentary copies available to reviewers. For more information, contact Patti Woo, Marketing Coordinator, or visit our website at www.isupress.edu.

Book News**Managing Livestock Wastes to Preserve Environmental Quality***By J. Ronald Miner, Frank J. Humenik, Michael R. Overcash*

PUBLICATION DATE: November 2000

FOR IMMEDIATE RELEASE

The livestock and poultry industries continue to grow at an alarming rate and the need for safe and effective manure management has never been more important. A thorough discussion of manure storage and treatment, *Managing Livestock Wastes to Preserve Environmental Quality* focuses on several different aspects including:

- Dead Animal Storage
- Solid-liquid Separation
- Anaerobic and Aerobic Treatment
- Alternatives to Manure Application to Crop and Pastureland

Through *Managing Livestock Wastes to Preserve Environmental Quality*, readers will find methods of manure management that are environmentally friendly and economically efficient.

ABOUT THE AUTHORS: J. Ronald Miner is professor and extension water quality specialist in the Bioresource Engineering Department at Oregon State University, Corvallis. Frank J. Humenik is professor and coordinator of the animal waste management program in the College of Agriculture and Life Sciences at North Carolina State University, Raleigh. Michael R. Overcash is professor of chemical engineering at North Carolina State University, Raleigh.

330 pp., 6 x 9, illus., hardcover, ISBN 0-8138-2635-7, \$59.95. Price subject to change without notice. Sixty-day examination copies available to U.S. instructors. Complimentary copies available to reviewers. For more information, contact Patti Woo, Marketing Coordinator, or visit our website at www.isupress.edu.

Book News**Antimicrobial Therapy in Veterinary Medicine,
Third Edition***By John F. Prescott, J. Desmond Baggot, and Robert D. Walker, Editors*

PUBLICATION DATE: July 2000

FOR IMMEDIATE RELEASE

With 21 expert contributors, this third edition is revised and expanded from the previous edition. Its revision is due in part to the crisis of antibiotic resistance in human medicine and to extensive reexamination of the practice of using feed antibiotics as growth promoters and disease prophylactics in animals. In addition to these revisions, *Antimicrobial Therapy in Veterinary Medicine* includes two new chapters on:

- The use of antimicrobial drugs in aquaculture
- Regulation of antibiotic use in animals

Well-organized and easy to read, this comprehensive summary will be an invaluable guide to educators, practitioners, and researchers in the veterinary profession.

ABOUT THE AUTHORS: John F. Prescott, M.A., Vet.M.B., Ph.D., is professor in the Department of Pathology, University of Guelph, Ontario, Canada. J. Desmond Baggot, M.V.M., Ph.D., D.Sc., F.R.C.V.S., is visiting professor of Comparative Pharmacology, Victorian College of Pharmacy, Monash University, Melbourne, Australia and former professor of Preclinical Veterinary Studies, Faculty of Veterinary Science, University of Zimbabwe, Harare, Zimbabwe. Robert D. Walker, M.Sc., Ph.D., is professor in the Animal Health Diagnostic Laboratory, College of Veterinary Medicine, Michigan State University, East Lansing.

815 pp., illus., 6 x 9, hardcover, ISBN 0-8138-0779-4, \$99.95. Price subject to change without notice. Sixty-day examination copies available to U.S. instructors. Complimentary copies available to reviewers. For more information, contact Patti Woo, Marketing Coordinator, or visit our website at www.isupress.edu.

Book News**The Health of Dairy Cattle***By A. H. Andrews, Editor, BVetMed, Ph.D., MRCVS*

PUBLICATION DATE: June 2000

FOR IMMEDIATE RELEASE

With milk production suffering economic pressures in Europe and around the world, milk producers need to increase their efficiency in managing their herds. Specifically, milk producers must utilize all tools available to maintain the health and production of their dairy herds, from birth until they leave the herd. *The Health of Dairy Cattle* is one of those tools.

This book provides a practical guide for large animal veterinarians, farm managers, and veterinary students who are involved in dairy production. It examines ways to reduce or overcome the many problems that can afflict dairy cattle; problems like nutrition, lameness, fertility, and mastitis. In addition, the book's chapters address other developmental factors, like:

- Mammary Development
- Genetics
- Housing and Production

ABOUT THE EDITOR: Anthony H. Andrews is an independent veterinary consultant, and an RCVS recognized specialist in cattle and health production, Welwyn, Herfordshire, UK.

359 pp., 7 x 10, illus., hardcover, ISBN 0-632-04103-X, \$92.95. Distributed for Blackwell Science. U.S. and Canadian rights. Price subject to change without notice. Sixty-day examination copies available to U.S. instructors. Complimentary copies available to reviewers. For more information, contact Patti Woo, Marketing Coordinator, or visit our web site at www.isupress.edu.
