We mastered cattle vaccines for this decade...

And the next.

Disease prevention is your investment in the future. So it makes sense to use a vaccine that's already there.

That vaccine is CattleMaster™. Its sophisticated technology gives you your best protection against respiratory and reproductive diseases.

How? 'CattleMaster' combines modified live and killed antigens with our unique chemically altered fractions. Each component is chosen for top performance and all are fully compatible.

'CattleMaster' antigens activate the animal's white blood cells — like those shown at the left — to fight off disease-causing viruses and bacteria.

'CattleMaster' maximizes both safety and performance, as proven in countless laboratory tests, field trials and independent challenge tests. 'CattleMaster' is so safe, pregnant cows can be vaccinated in any trimester.

And, while you're preventing disease, how about preventing extra work? With 'CattleMaster', there's no need to juggle an armload of syringes. Choose your range of disease protection from these five combinations. It's your Master Plan.

CattleMaster™ 4+VL5 —
IBR, PI₃, BVD, bovine RSV, 5-way
lepto and vibriosis.

CattleMaster™ 4+L5 —
IBR, PI₃, BVD, bovine RSV, 5-way
lepto.

CattleMaster™ 4 —
IBR, PI₃, BVD, bovine RSV.

CattleMaster™ 3 —
IBR, PI₃, BVD.

CattleMaster™ IBR-PI₃-BRVS.

Ask your Norden field representative about 'CattleMaster'. Norden Laboratories. The company that's always a step ahead of the times.

CATTLEMASTER™
THE MASTER PLAN FOR HERD HEALTH MANAGEMENT

*Bovine White Cells magnified 5000 times.
'CattleMaster' stimulates these defender
cells to recognize and destroy the disease-
causing viruses or bacteria.*

THE BOVINE PRACTITIONER is published by the American Association of Bovine Practitioners, Inc. at Frontier Printers, 205 W. 9th, Stillwater, OK 74074 (phone 405-372-8500). Over 7000 copies are mailed to veterinarians engaged in cattle practice and allied institutions. Send new address (please include old address) to:

Dr. Harold Amstutz, Exec. Sec.-Treas., AABP, Box 2319, W. Lafayette, Indiana 47906.

Editorial Board

At the Annual General Meeting on Dec. 10, 1976, AABP members approved the appointment of an editorial board for this journal. Members of the board are Dr. Leland Allenstein, Dr. Harold E. Amstutz, and the editor, Dr. Eric I. Williams. The journal is thus an official, refereed publication.

By agreement between the Board of Directors, American Association of Bovine Practitioners and the World Association of Buiatrics, this journal will serve as a communication medium between Bovine Practitioner Associations across the world. Papers related to bovine practice will be accepted from overseas correspondents. Notices and brief reports of national conventions on cattle diseases will be accepted for publication. All communications must be presented in English and sent to the editor BEFORE JULY 15.

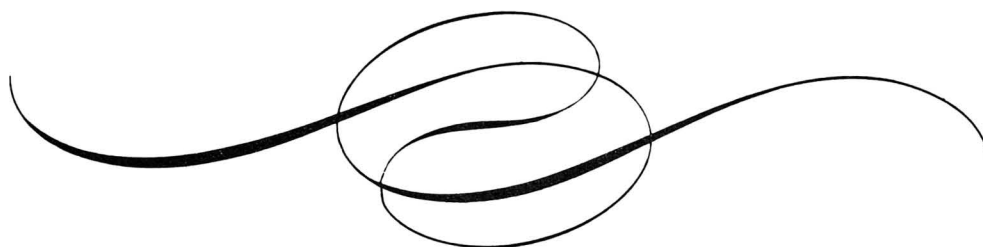

Copies of the Bovine Practitioner are available to non-members for \$20.00 per copy, surface mail, or \$25.00 airmail (overseas).

TABLE OF CONTENTS

Clinical Observations and Laboratory Analysis of Factors that Affect the Survival and Performance of Beef Cattle— <i>D. P. Olson, E. P. Duren, K. A. Bramwell, S. R. Henson, R. R. Panting, T. W. Ritter, D. W. Sharp</i>	4
Implementation of Production Medicine Programs— <i>W. P. Kearley</i>	12
A Serological Study of Human Herpesvirus Simplex 1 and Herpesvirus 1, 2, and 4 in Kansas Cattle— <i>R. M. Phillips, R. F. Nassar</i>	14
One Year Antibody Responses of Four Inactivated Infectious Bovine Rhinotracheitis—Bovine Viral Diarrhea Vaccines— <i>M. L. Frey</i>	18
A Tissue Culture-Derived <i>Pasteurella Haemolytica</i> Vaccine— <i>R. W. Loan, M. G. Tigges, C. W. Purdy</i>	22
The Effectiveness of Micotil for the Treatment of Bovine Respiratory Disease— <i>J. K. Merrill, L. V. Tonkinson</i>	26
Current Status of Insecticide Resistance in the Horn Fly, <i>Haematobia irritans</i> (L.)— <i>R. L. Byford, B. L. Crosby</i>	29
Evaluation of Information Obtained from a Series of Blood Samples from Stress-Free Roaming Cattle Taken with the Aid of Radio Remote Controlled Small Portable Blood (or Other Body Fluids) Sampling Devices— <i>E. Stephan, M. Cybik</i>	35
Efficacy and Long-Lasting Activity of Spiramycin in Young Beef Cattle with Infectious Enzootic Broncho-Pneumonia (I.E.B.P.)— <i>J. P. Alzieu, H. J. Bichet, B. Levrier, F. Van Gool, R. Bayle, M. Libersa, J. Espinasse</i>	38
Immunosuppressive Effects of Bovine Viral Pathogens: A Review— <i>L. J. Perino</i>	42
Bloat in Calves—Some Aspects of Differential Diagnosis and Therapy— <i>K. Doll</i>	49
Oesophageal Groove Dysfunction as a Complication of Neonatal Diarrhea in the Calf— <i>G. Dirksen, L. Dirr</i>	53
Treatment of North Dakota Beef Cows and Calves with Ivermectin: Some Economic Considerations— <i>K. Wohlgemuth, J. J. Melancon, H. Hughes, M. Bionclini</i>	61
Urea (Ammonia) Toxicosis in Cattle— <i>C. K. Whitehair</i>	67
Reticulo, Omasal, Abomasal Volvulus in Dairy Cows— <i>C. E. Wallace</i>	74
A Deviation Chart for Evaluating Heifer Growth— <i>J. Ehrlich, A. J. Heinrichs</i>	77
Efficacy of Oxytocin Versus Fenprostalene for the Prevention of Retained Placenta in the Dairy Cow— <i>E. Studer, K. Hirose, A. Holtan, L. McGinnis</i>	81
Comparison of Two Methods for Thawing Colostrum Before Supplemental Feeding to Newborn Calves— <i>D. P. Olson</i>	83
Cooling Dairy Cattle in a Hot Climate— <i>D. V. Armstrong, F. Wiersma</i>	87
Dairy Design for a Semi-Arid Climate— <i>D. V. Armstrong, F. Wiersma</i>	89
Effectiveness of Prostaglandin Treatment of Anestrus in Dairy Cows— <i>J. D. Gaines, S. Eicker, P. Larson</i>	98
The DairyCHAMP Program: A micro-computer based health and management program for dairy herds— <i>N. B. Williamson, P. Udomprasert</i>	106
Evaluating Herd Reproductive Status Using the DairyCHAMP Program— <i>N. B. Williamson</i>	110
The Value of Retreating the Dry Cow— <i>E. Studer, K. Hirose, A. Holtan, L. McGinnis</i>	114
Information and Herd Health Management Practices in Texas Dairies— <i>W. H. Howard, T. O. Knight, C. R. Shumway, R. W. Blake, M. A. Tomaszewski</i>	117
Assessment of Sodium Deficiency and Polyuria/Polydipsia in Dairy Cows— <i>W. G. Olson, K. R. J. Link, D. E. Otterby, J. B. Stevens</i>	126
Common Feeding Problems and Their Solution in Dairy Herds— <i>D. T. Galligan</i>	134
Milking Equipment and Mastitis Control: How to Make Milking Machine Companies Your Allies— <i>A. P. Johnson</i>	136
Pathogenic Studies of Bovine Progressive Degenerative Myeloencephalopathy (Weaver) of Brown Swiss Cattle— <i>H. W. Leipold, M. El-Hamidi, D. Troyer</i>	145
The Use and Abuse of Serologic Testing— <i>S. K. Hietala</i>	147
Urinary Tract Disorders in Cattle— <i>T. J. Divers</i>	150
Mineral Nutrition and Early Embryonic Mortality in the Bovine Animal— <i>J. E. Manspeaker, M. G. Robl, G. H. Edwards</i>	154
Case Report: Abomasal Displacement in an Indubrazil Zebu Bull— <i>M. Medina-Cruz</i>	157
Oestrus During Pregnancy in the Cow— <i>L. Thomas, H. Dobson</i>	160
Salorn: A New Breed of Cattle	165

Vegetative Endocarditis in Cattle— <i>J. A. Hoffman</i>	167
Dicumarol Toxicity in a Herd of Ayrshire Cattle Fed Moldy Sweet Clover— <i>W. DeHoogh</i>	173
Johne's Disease in Cattle— <i>G. Cline</i>	176
Aplastic Anemia in a Holstein Bull Calf with Lymphosarcoma— <i>R. McLaughlin</i>	180
