Tune in while you drive.

Your idle time becomes learning experiences.

If you are like most veterinarians, you probably drive over 15,000 miles per year. Averaging 40 mph you spend 375 hours behind the wheel of your car. And for the most part that's idle time.

You probably agree with the statement, "time is money." Now you can turn your idle time into fabulous learning sessions by tuning in to the spoken journal of veterinary medicine.

Sit back, relax, and enjoy stimulating clinical lectures of practical importance to you. From more than 600 hours of medical recordings, we skillfully edit each tape to give you the pearls n' nuggets of hundreds of lectures by renowned medical authorities.

You'll tune in to such stimulating conferences as the American, Intermountain, California, Washington, Texas, New York, Ohio, and Michigan Veterinary Medical Association conferences. Plus the American Associations of Equine, Bovine, Swine Practitioners.

HOW IT WORKS:

As a subscriber you receive one information-packed cassette and reference index (frequency depends upon program).
