RESFLOR GOLD is a broad-spectrum antibiotic that works against the four major bacterial causes of BRD and a non-steroidal anti-inflammatory drug in one.

Watch the video at [www.resflorgold.com](http://www.resflorgold.com)

*Time-lapse photos were taken of a randomly chosen calf during an actual trial conducted at a Research Facility in Canyon, TX, on October 14, 2009.*

**Ask your Intervet/Schering-Plough Animal Health representative about RESFLOR GOLD.**

For subcutaneous use in beef and non-lactating dairy cattle only. Not for use in female dairy cattle 20 months of age or older or in calves to be processed for veal. The effects of florfenicol and flunixin on bovine reproductive performance, pregnancy, and lactation have not been determined. When administered according to the label directions, RESFLOR GOLD may induce a transient local reaction in the subcutaneous and underlying muscle tissue. Full product information on page 162.

Resflor Gold is property of Intervet International B.V. or affiliated companies or licensors and is protected by copyrights, trademark and other intellectual property laws. Copyright © 2010 Intervet International B.V. All rights reserved.  
<sup>1</sup>The correlation between *in vitro* susceptibility data and clinical effectiveness is unknown. <sup>2</sup>Exhibits bactericidal activity against some strains of *Mannheimia haemolytica* and *Histophilus somni*. RES-41B
