“Vista® Once is going right back into the cooler and then it goes right back in the calves.”

**- Ray Pawlisch, DVM
Wisconsin**

Vista® Once SQ is the most complete respiratory protection available, offering 5-way modified live viral protection in combination with the only avirulent-live culture *Mannheimia haemolytica* and *Pasteurella multocida* protection. And it's backed by respiratory research validating:

- Respiratory duration of immunity of at least:
 - 182 days for Infectious Bovine Rhinotracheitis (IBR)
 - 206 days for Bovine Virus Diarrhea (BVD) Type 1
 - 200 days for BVD Type 2
- Three-day onset of immunity for IBR respiratory protection
- BVD Type 1b cross protection
- BVD Type 2 protection in the face of maternal antibodies

The five-way protection of Vista also is available in combination with the only single-dose *Lepto hardjo-ovis* protection: Vista 5 L5 SQ.

For more information about Vista vaccines, talk to your veterinarian or animal health provider.
