**"No other respiratory vaccine provides the protection  
Vista® Once SQ does – that's why I recommend it."**

**- Clint Hilt, DVM  
Montana**

Vista® Once SQ is the most complete respiratory protection available, offering 5-way modified live viral protection in combination with the only avirulent-live culture *Pasteurella multocida* and *Mannheimia haemolytica* protection. And it's backed by respiratory research validating:

- Respiratory duration of immunity of at least:
  - 182 days for Infectious Bovine Rhinotracheitis (IBR)
  - 206 days for Bovine Virus Diarrhea (BVD) Type 1
  - 200 days for BVD Type 2
- Three-day onset of immunity for IBR respiratory protection
- BVD Type 1b cross protection
- BVD Type 2 protection in the face of maternal antibodies

The five-way protection of Vista also is available in combination with the only single-dose *Lepto hardjo-bovis* protection: Vista 5 VL5 SQ.

Offer the most complete respiratory protection available — recommend Vista vaccines to your clients today.

**Vista® Once SQ**

Available in 10 & 50 dose
