## **49th ANNUAL CONFERENCE**

Charlotte, North Carolina  
September 15-17, 2016

# Moraxella bovoculi Problems?

# Moraxella bovoculi SOLUTION!

## The Addison Autogenous Program

- Complete Diagnostic and Autogenous Support
- Fast Delivery on Initial Order
- Excellent Syringeability
- Exceptional Safety Record

MAXI/GUARD® Pinkeye Bacterin has earned the trust of bovine practitioners as the preferred pinkeye preventative when the disease is caused solely by *M. bovis*. However, the problem can be caused by the combination of *M. bovis* and *M. bovoculi* bacteria. Unfortunately no commercial vaccines provide that coverage. When *M. bovoculi* is present, your best option is utilizing MAXI/GUARD® along with the Addison Autogenous Program. We can assist you from diagnosing the problem to creating the solution!
