AMERICAN ASSOCIATION OF BOVINE PRACTITIONERS

43rd ANNUAL CONFERENCE

American Association of Bovine Practitioners
Albuquerque, New Mexico
August 19-21, 2010

Property of
Medical Sciences Library
Texas A&M University

INTRODUCING

See a Difference in One Dose

RESFLOR GOLD is a broad-spectrum antibiotic that works against the three major bacterial causes of BRD and a non-steroidal anti-inflammatory drug in one.

Watch the video at www.resflorgold.com

Time-lapse photos were taken of a randomly chosen calf during an actual trial conducted at a Research Facility in Canyon, TX, on October 14, 2009.

Ask your Intervet/Schering-Plough Animal Health representative about RESFLOR GOLD.

For subcutaneous use in beef and non-lactating dairy cattle only. Not for use in female dairy cattle 20 months of age or older or in calves to be processed for veal. The effects of florfenicol and flunixin on bovine reproductive performance, pregnancy, and lactation have not been determined. When administered according to the label directions, RESFLOR GOLD may induce a transient local reaction in the subcutaneous and underlying muscle tissue. Full product information on page 40.

Resflor Gold is property of Intervet International B.V. or affiliated companies or licensors and is protected by copyrights, trademark and other intellectual property laws. Copyright © 2009 Intervet International B.V. All rights reserved. RES-02G ¹ Exhibits bacterial activity against some strains of *Mannheimia haemolytica* and *Histophilus somni*. ² The correlation between *in vitro* susceptibility data and clinical effectiveness is unknown.

2010-2011 AABP Publications Fees

The dues for the 2010-2011 membership year will remain the same at \$125 for regular members, \$65 for interns, residents and graduate students and \$20 for veterinary students.

Postage and printing costs have increased significantly in the last few years. To keep dues from rising, the Board of Directors has implemented a series of publication fees for members wishing to receive hard copies of the various AABP publications. As already in use by many other associations, electronic-only publications help to address rising costs, a disparity in mailing costs to various parts of the globe and improve resource utilization. When you renew your dues for the 2010-2011 membership year, the actual dues will remain the same. The following table lists the fees that will be charged, if you wish to continue to receive the two categories of publications as printed copies. The largest input considered in establishing the following fees is postage, followed by printing, shipping and handling.

Publication	United States	North America non-US*	Outside North America
Newsletter	\$10.00	\$20.00	\$30.00
Bovine Practitioner (2 volumes) and the Annual Conference Proceedings	\$25.00	\$40.00	\$55.00

* Canada and Mexico

All of the publications will continue to be available to members on the AABP website and they can be accessed on-line or downloaded using routine "file save" procedures unique to the web browser being used. Additionally, the AABP Information Technology Coordinator has created an extractable ZIP file with all of the 2009 publications (12 newsletters, 2 Bovine Practitioners and 1 Proceedings). This file can be downloaded from either the Bovine Practitioner page or the Annual Conference Proceedings page using either of the following links: <http://www.aabp.org/members/publications/practitioner.asp> or <http://www.aabp.org/members/publications/proceedings.asp>

Please contact the AABP Office by phone, fax, or email at 800-269-2227, 334-821-9532, or aabphq@aabp.org, respectively, if you have any questions.
