Getting more from your dewormer starts with a proven investment. LONGRANGE is the first and only dewormer that provides up to 150 days of parasite control.¹ It's how top producers help their herds pack on the pounds, and in turn, bank more bucks. LONGRANGE is the difference between being average and being at the top of your game. So, next time you're deworming cattle, don't just get the job done.

Get it outdone.
