

Vol. 52, No. 2  
SUMMER 2018

# *The Bovine* **PRACTITIONER**

THE OFFICIAL PUBLICATION OF THE  
AMERICAN ASSOCIATION OF BOVINE PRACTITIONERS

Plan to attend the  
**52nd ANNUAL CONFERENCE**

St. Louis, Missouri  
September 12-14, 2019

# Moraxella bovoculi Bacterin

## World's First Commercially Available Moraxella bovoculi Pinkeye Preventative!

- **8 Different M. bovoculi Isolates**
- **Cost Effective for All Cattle Herds**
- **Proven Safety Record**
- **More Convenient than Autogenous Programs**

Addison Biological Laboratory, Inc. announces the approval of the world's first commercial Moraxella bovoculi vaccine for the prevention of pinkeye in cattle. This USDA conditionally licensed product is the first of this kind. Previously the only method of prevention against *Moraxella bovoculi* was autogenous services. This vaccine signifies a breakthrough in convenience for the large number of veterinarians and herd owners battling the challenging problem of pinkeye caused by *Moraxella bovoculi*. This product license is conditional; efficacy and potency have not been fully demonstrated.

***From the LEADERS in pinkeye prevention!***

**Ashland, OH 44805**  
**Tel: (419) 496-0685; FAX (419) 496-0697**  
**e-mail: aabphq@aabp.org**  
**http://www.aabp.org**

THE BOVINE PRACTITIONER is the official publication of The American Association of Bovine Practitioners, published in the spring and summer annually. It serves as a communication medium between bovine practitioner organizations around the world. All manuscripts and communications must be presented in English. Beginning in 2018, THE BOVINE PRACTITIONER is an open access journal following a 6-month post-publication embargo to allow AABP members and veterinary medical libraries first access.

Copies of THE BOVINE PRACTITIONER are available to non-members for \$30.00 per copy for domestic destinations, or \$35.00 for international addresses. **Contact editor for details.**

---

Appreciation is extended to each board member for volunteering their time and expertise to review articles for *The Bovine Practitioner*.

# Klebsiella mastitis now has nowhere to hide.

**New KLEBVax™ with SRP® technology keeps cows healthy and productive.**

KLEBVax™ from AgriLabs® is the first vaccine licensed for mastitis infections caused by Klebsiella – an increasingly challenging disease in dairy cattle. Based on Siderophore Receptor and Porin (SRP®) technology, KLEBVax is an exciting new tool to fight Klebsiella mastitis in your customers' dairy operations.

**Ask your AgriLabs representative about new KLEBVax.**
